AIM: To create an Zero-Dollar (₹0) AWS Budget to monitor and control costs so that no charges are incurred beyond Free Tier usage.

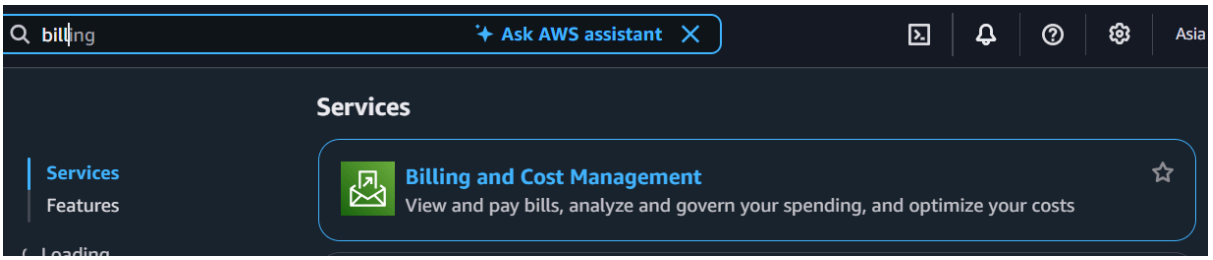

Description:

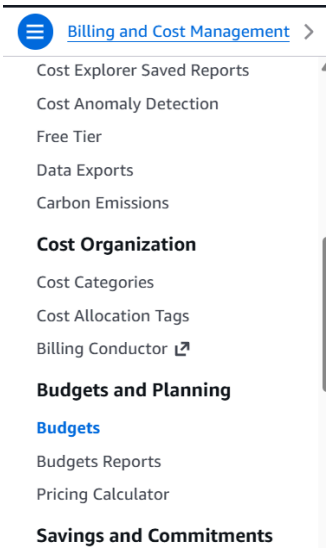

AWS Budgets serves as a financial monitoring tool within Amazon Web Services, allowing users to track and regulate cloud expenditure effectively. This practical session focuses on setting up a zero-cost budget configuration to observe resource utilization and restrict spending within complimentary usage thresholds. Automatic notifications are triggered upon detecting unexpected billing occurrences, allowing prompt remediation to eliminate unplanned expenditure. Implementing this strategy enables novel practitioners to navigate cloud environments securely while retaining rigorous oversight of accrued expenses.

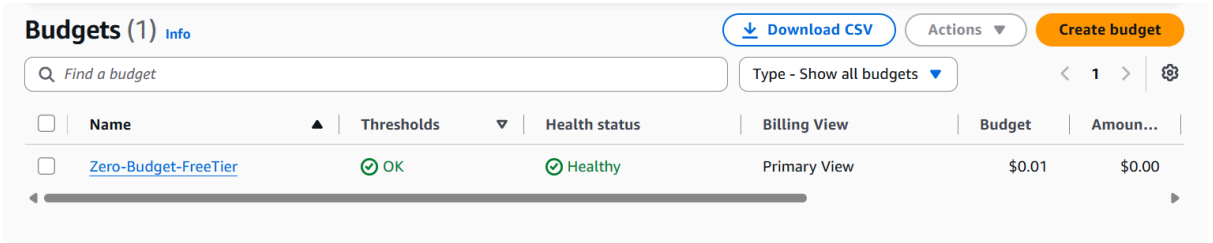

Steps:

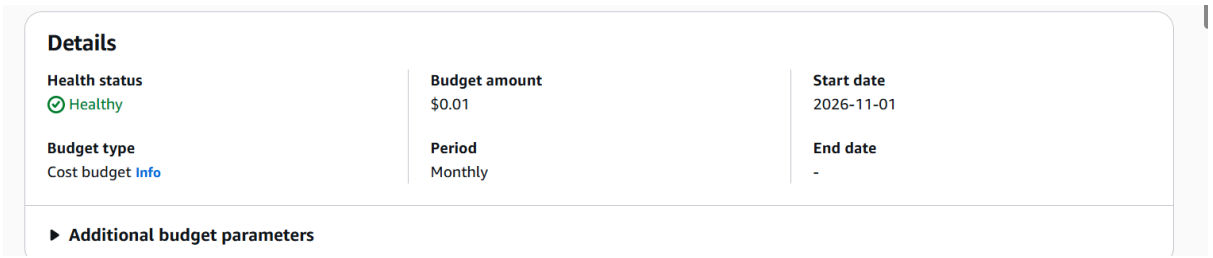

1. Open AWS Website
2. Login at AWS console
3. In the search bar, open Billing -> Billing Cost Management.
4. Click create Budget and select customized template.
5. Select Cost budget -> click next.
6. Enter the budget name as Zero Budget Free tier.
7. Set the budget start date as the current date and leave the end date.
8. Under the budget amount type $0.01 and click next.
9. Click add alert threshold.
10. Add configure alert and give the email for alerts and click next.
11. Review all settings and click create budget.
